Dated: 1st January 2015

WARNING

Wood dust produced by machining or sanding wood products including plywood, may cause irritation to the eyes, nose and throat.

It may also cause sensitisation, e.g. dermatitis and asthma

Repeated and prolonged exposure to wood dust may cause nasal cancer.

AVOID BREATHING WOOD DUST: AVOID CONTACT WITH EYES

Work in a clean, well ventilated area with machines that are equipped with efficient dust extraction systems, or if these are not available wear an Australian/New Zealand standards approved dust mask and eye protection.

Respirators/dust masks should comply with AS/NZS 1716 and be selected and maintained in accordance with AS/NZS 1337, should be worn when machining these products.

Further information in regard to the safe use and handling of these products is contained in the Material Safety Data Sheet available from
